## **Ease Your Feet into Comfort with Petal Plusheez**

**Foot Petals**, the Los Angeles based designer shoe accessory company, steps into the world of legwear with its new product "*Petal Plusheez*". This spa inspired sock was created with the active woman in mind, and understanding her desire for relaxation and rejuvenation.

Extra soft and perfectly plush, "*Petal Plusheez*" is a chenille stretch ankle sock available in black iris, rose or white lily. **Foot Petals'** signature flower logo makes up the slip free tread on the bottom of the sock, and one size fits all. These cozy socks are designed to wear in place of bulky slippers. They are easy to pack, perfect on airplanes, great in hotel rooms, or to slip-on at home while relaxing.

"*Petal Plusheez*" will soothe and comfort your soles with spa-like relief for stressed out feet. Fashionable, yet still practical with the wearable slip free tread. Positively pretty, no woman should leave home without them, because your feet deserve to be pampered!!
