**TREAT YOUR FEET THIS FALL  
WITH THE NEW SPALUX CLOG SLIPPERS FROM FOOT PETALS**

**THINK: Slip your feet into something more comfortable.**

**WHAT THEY ARE: Feet retreats.** If any part of your body deserves a little pampering, it's your feet. After all, they literally carry the weight of your entire world, doing more for you on any given day than most other parts of your body. To **reward feet for all they do**, FootPetals introduces the **NEW SpaLux Clog Slippers** – **chic little comforts that soothe feet in style.**

Available in three ever-popular prints – **Pink Leopard, Brown Leopard and Zebra** – every **SpaLux Clog Slipper** comes with one of **Foot Petals' full-length Killer Kushionz** sewn right inside. These best-selling insoles are designed to **provide arch and heel support** and **literally cushion the feet with each step.** For extra comfort, the **footbed of each SpaLux Clog Slipper is tagless**, so you never have to worry about itchy, scratchy tags irritating the bottom of your feet.

**SpaLux Clog Slippers** feature a **super-soft, lightweight plush fabric** inside and out as well as **rubberized soles** that make them ideal for both indoor and outdoor wear. Each pair comes in a newly designed **Foot Petals', clear reusable shoebox**, a pretty, yet practical way to store shoes as pairs can be seen right through the box.

**WHAT THEY COST: \$44.95**

**WHERE TO FIND THEM:** Dillard's and specialty boutiques nationwide beginning September 2007. To find a retailer near you, visit [www.footpetals.com](http://www.footpetals.com).
